furnished by the Dispensary at Kalasa itself. This has been recognised during the past 3 or 4 years - now that the planters have raised a fund, built a hospital & quarters &c it seems only fair & proper that the grant-in-aid should be continued for a term of years so long as the planters keep to their part of the agreement.

(22) The grant-in-aid of 80Rs may be sanctioned for a further period of 2 years. The D.S. should be asked to furnish a report every year about the working of the fund so that Govt may satisfy themselves that the grant has been deserved & properly utilised.

Final Note by the Second Member of Council.

Subject:—

Proposals for the continuance of the grant-in-aid to the Kalasa Medical Fund.

A grant-in-aid to the Kalasa Medical Fund not exceeding Rs.80/- a month was sanctioned in Government Order No. 6798/ Med. 33-15-15 dated 11th March 1916, subject to certain conditions.

One of the conditions was that the grant should cease after a year or after a Government Dispensary was opened at Balur or other convenient place, whichever was earlier. A Government Dispensary having been recently opened temporarily at Balur under the Malnad Improvement Scheme, the Planters in the area apprehended that the grant to their institution would cease and submitted a representation to Government for the continuance of the grant as the dispensary was doing good work. The Senior Surgeon who was consulted in the matter stated that according to conditions laid down the grant should cease and added that he was awaiting the opinion of the Malnad Improvement District Committee in this connection. On an enquiry being made in the matter it is seen that the Dispensary opened at Balur is about 23 miles from Kalasa and serves, in no way, the interests of the planters and the coolies employed by them round about that place. Though there is a Government Dispensary at Kalasa itself, it is considered that additional medical aid, besides what is provided by the Government Dispensary at Kalasa, is necessary to meet the requirements of the Planting Community in that locality.

The Planters have established a Dispensary of their own and are contributing liberally towards its maintenance. It seems therefore unnecessary to insist on the condition referred to above.

It is accordingly proposed to continue the grant to the Fund tentatively for another two years, the Senior Surgeon being requested to furnish a yearly report regarding the work of the dispensary opened by the --- Planters.

This arrangement is agreed to by the Members of Council and the draft* order in accordance therewith may be approved.

Dear Mr. Kesavaiengar

With reference to your D.O.No.2340/Med.of yesterday's date, I beg to state that the new dispensary sanctioned for Balur is located at Watekhan in the premises known as Watekhan Ganesha Rao's Bungalow which was selected for the purpose by the Deputy Commissioners, Messrs.K. Krishna Iyer, L. Krishna Rao and B. Ramaswamaiya as being the only available central place within a radius of 5 miles. The Senior Surgeon with the Government of Mysore also approved of the same in para 2 of his letter to me No.752, dated 2nd August 1915, the extract of which is as below:-

" As suggested in para 4 of your letter under reference, the location of the dispensary near the 4th mile stone in the building belonging to Saraswathiamma will be more convenient

2. Balur with a population of 1157 as per Census of 1911 is the name of a village which stretches from the 2nd mile,4th furlong to nearly the 6th mile on the Kottigehar-Kalasa Road. The Post and Telegraph Office, called " Balur " is really at

Javali which is between the 5th and 6th miles on the Kalasa Road. Watekhan where the dispensary is now established is a few yards from the 4th mile.

3. The distance between Balur village to Watekhan is 1½ miles

--------do-------- Watekhan to Kalasa 23 miles,
